HERITAGE OF EXCELLENCE

Founded in 2006 by visionary perfumer Mr. Abdullah Karji, First Perfumes Ind LLC has established itself as a leading name in the UAE's perfume and cosmetics manufacturing sector. In less than two decades, we have grown from a dedicated production facility into a globally recognized manufacturing unit, celebrated for precision, innovation, and craftsmanship. Our long-standing history has enabled us to build deep industry expertise, positioning us as a trusted partner for brands, retailers, and entrepreneurs worldwide. Whether it's creating heritage-inspired fragrances or cutting-edge modern formulations, we have always remained committed to excellence in manufacturing and innovation.

OUR FACILITY

Located in Jebel Ali, Dubai, our state-of-the-art manufacturing facility is designed to meet the highest global standards of production and compliance. Spread across a dedicated industrial zone, the factory integrates all key manufacturing functions under one roof, ensuring full control, efficiency, and traceability.

KEY HIGHLIGHTS OF OUR FACILITY

ADVANCED PRODUCTION LINES

Equipped with automated batching, compounding, filling, and bottling systems.

DEDICATED COSMETICS UNIT

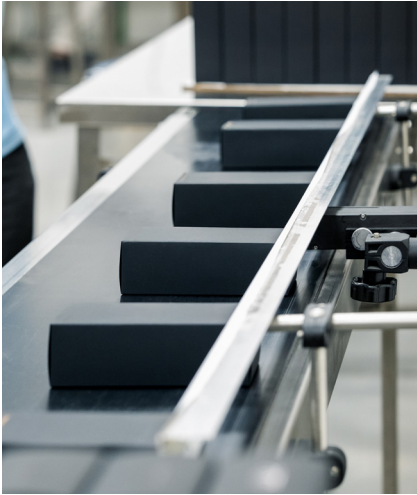

Specialized lines for creams, lotions, mists, and personal care products.

QUALITY CONTROL LABORATORIES

For testing raw materials, formulations, and final products to meet international safety standards.

KEY HIGHLIGHTS OF OUR FACILITY

PACKAGING UNIT

In house design and production of luxury goods packaging, fully finished, market-ready product that meets brand, quality, and safety requirements.

BOTTLE & DECORATIONS UNIT

A specialized in house section dedicated to the preparation, customization, and aesthetic enhancement of bottles and other packaging before they are filled and packed ensuring the brand's image through elegant design, color, and craftsmanship — turning a simple container into a luxury product presentation.

SUSTAINABILITY MEASURES

Energy-efficient equipment, water recycling systems, and waste minimization protocols.

OUR FACILITY IS CERTIFIED WITH:

US FDA Registered Facility
(FEI #: 3037596774)

ISO 22716:2007
(Cosmetics GMP)

EU CPNP
(Cosmetic Products
Notification Portal)

CGMP (Current Good
Manufacturing Practices)

UK SCPN

Notifications)

MANUFACTURING CAPABILITIES

As a fully integrated perfume and cosmetics manufacturing company, we offer end-to-end production solutions that allow our partners to bring products to market efficiently and with confidence.

PERFUME MANUFACTURING

01 Compounding and batching for Eau de Parfum, Eau de Toilette, and niche blends.

02 Expertise in both classic perfumery traditions and modern creative innovations.

03 Flexible production volumes — from small exclusive batches to mass production.

04 Specialized Packaging and Decoration Unit- for high quality customization and consistent brand presentation equipped with modern labeling, printing, bottle coloring and finishing systems.

COSMETICS & PERSONAL CARE

01 Development and manufacturing of body lotions, creams, oils, and hair mists.

02 Use of safe, sustainable ingredients and innovative raw materials.

03 Committed on producing quality, safe and efficient products while ensuring the compliance with local and international standards.

PRIVATE LABEL & CONTRACT MANUFACTURING

First Perfumes Ind LLC offers comprehensive support to brands aiming to develop their own fragrance lines, guiding them through every stage from concept creation to market launch.

01 Full-service solutions: fragrance development, formula creation, packaging design, compliance testing, and logistics support.

02 Trusted by emerging niche brands as well as international players.

IN-HOUSE DIVISIONS

To ensure vertical integration and quality consistency, First Perfumes Ind LLC operates multiple specialized divisions:

01 Production Facility – Automated batching and filling lines designed for consistency and speed.

02 Packaging Division – Luxury packaging tailored to client specifications, offering both standardized and custom solutions.

03 Bottle Coloring & Decoration Unit – Expertise in lacquering, silk-screen printing, and specialty finishes for bottles.

RESEARCH & DEVELOPMENT (R&D)

Innovation drives our success. Our dedicated R&D laboratory focuses on:

- 01** Creating unique fragrance accords and cosmetic formulations.
- 02** Exploring new raw materials, sustainable ingredients, and natural extracts.
- 03** Conducting stability and compatibility tests to ensure product durability, safety, and compliance with regulatory standards.
- 04** Supporting brands with trend forecasting and market insights to help shape future launches.

This makes us not only a manufacturer but also a development partner, capable of helping clients design their next best-selling product.

FROM BRIEF TO FINISHED PRODUCT - OUR PROCESS

01 Briefing – Understand client vision and goals.

02 Brand Story Preparation – Define identity, positioning, and storytelling.

03 R&D – Develop formulations and select raw materials.

04 Sampling – Share prototypes for approval.

05 Packaging – Design and decorate bottles and boxes.

06 Production – Batch, fill, and assemble under strict Quality Control checks.

07 Compliance – Register products for global markets.

08 Delivery – Ship finished products worldwide.

SUSTAINABILITY IN MANUFACTURING

At First Perfumes, sustainability is a core pillar of our operations. We believe manufacturing must support not only market demands but also environmental responsibility.

01 *Eco-Friendly Sourcing* – We prioritize raw materials that are responsibly sourced, traceable, and aligned with ethical supply chains.

02 *Green Operations* – Energy-efficient production lines, optimized water usage, and waste reduction systems are embedded in our facility.

03 *Sustainable Packaging* – Development of recyclable, biodegradable, and eco-conscious packaging materials to reduce plastic dependency.

04 *Employee & Community Responsibility* – Training staff in sustainable practices and supporting local suppliers to promote responsible growth.

GLOBAL COMPLIANCE & REGISTRATIONS

We are fully compliant with international regulations, enabling brands to distribute products manufactured by us worldwide:

UAE / GCC – Registered with Dubai Municipality & ESMA.

European Union (EU) – Fully compliant with EC Cosmetic Regulation (No. 1223/2009) via CPNP.

United Kingdom (UK) – Registered with OPSS via the SCPN portal.

United States (USA) – FDA facility registration and selected products listed for compliance.

OUR LEGACY

For nearly two decades, First Perfumes Ind LLC has been at the core of the UAE's fragrance and cosmetics manufacturing industry. With a balance of heritage, innovation, and sustainability, we continue to deliver excellence for partners who trust us with their brands.

"At First Perfumes, we don't just manufacture fragrances — we craft legacies with precision, responsibility, and artistry."
